

Workshop

Hink Painting
水墨畫 教學 | *Calligraphy*

* Date: **18th November, 2017 (Sat.)**

Time: **12:00 - 14:00**

Chinese calligraphy and ink painting are inseparable. Especially when drawing the specific subjects, such as bamboo. Because of the flexibility of its character, it becomes an important icon in Chinese culture. When drawing on the rice paper, each section of the bamboo stick should be certain and straight. The manner of drawing bamboo is exactly same as writing strokes of Chinese characters. Learning calligraphy is a way of learning aesthetic, too. Through writing you start to see the space between strokes, the structure of the words, and the beauty of the lines. It is not only a practice but also an awareness of being present.

In This workshop, you will learn how to draw bamboo sticks and leaves and then transform the feeling of drawing to write Chinese characters.
